REC'D-READING ROOM
FBI

Mr. Wesley G. Grapp
Federal Bureau of Investigation
Los Angeles, California

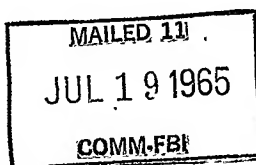

Dear Mr. Grapp:

It is a pleasure to commend, through you, the Los Angeles Division for the splendid statistical accomplishments realized during fiscal year 1965.

I have noted that your division improved your record in all four categories of accomplishments. This is most gratifying and indicates the enthusiasm, interest and skill with which everyone handled his respective responsibilities. Please convey my appreciation to everyone who contributed.

Sincerely yours,

J. Edgar Hoover

READING ROOM

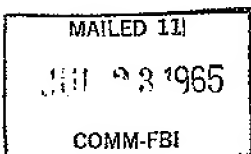

Dear Mr. Grapp:

Bureau records disclose that Time Spent in Office by Agents (TIO) in the Los Angeles Office was 22.1 per cent in June. This is a decrease from the figure in May. You should continue to follow this closely in order that this favorable downward trend may be continued, if at all possible.

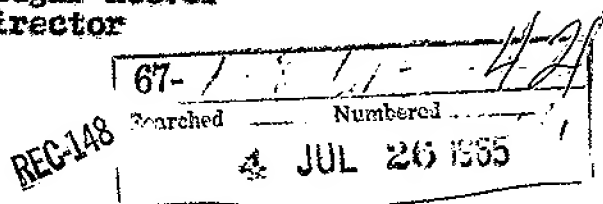

Sincerely yours,

J. Edgar Hoover

Dear Mr. Hoover:

I wanted to take this means to let you know again how much we appreciated the visit of you and Mr. Tolson to the office today. It is a great morale builder for our people and particularly the newer employees. They will be able to look back on this visit as the highlight of their careers.

I am grateful for the opportunity of having had such a lengthy discussion with you as I know your time is at a premium. It is sincerely hoped that the office is being operated in the manner you desire.

ASAC [redacted] joins me in extending to you and Mr. Tolson our warm personal regards and the fond hope that you will continue for many more years as the Director.

With all good wishes,

Sincerely,

Wesley Grapp

The above-captioned organization is comprised of the one hundred most influential individuals in the greater Los Angeles area. The members are the outstanding leaders in business, education, civic affairs, law, etc. They meet once a month for the purpose of getting better acquainted with one another and to hear a timely speech on a subject of mutual interest.

b7E

I have recently been extended the honor of joining this most exclusive group and have accepted. It is the first time such an invitation has been extended to an FBI representative. There is nothing in the files of this office that would preclude membership. There are enclosed two copies of a directory reflecting the identity of each member.

The above is being submitted for information purposes.

MR. TOLSON

November 1, 1965

W. M. FELT

INSPECTION - LOS ANGELES OFFICE
INSPECTOR P. C. YOUNG
SEPTEMBER 8 - 25, 1965

SUMMARY

b6
b7C

Officials: Wesley G. Grapp, SAC since 3/2/64; [REDACTED], ASAC since 1/14/62. Last inspection: 10/14 - 11/7/64.

Physical Condition and Maintenance - Excellent (Last Inspection - Excellent). Office conveniently located in federally owned building in business area. Space secure, well maintained and effectively utilized, but crowded. SAC instructed to afford close attention to negotiations underway for additional office space headquarters city and Santa Ana Resident Agency. Minor housekeeping deficiencies ordered corrected, 105 of 187 vehicles inspected - no delinquencies affecting safety; repair and operating costs below field average; continued safety and economy of operation stressed. Fleet adequate and securely maintained; SAC instructed to again conduct complete survey in Whittier Resident Agency to obtain commercial space for 2 cars.

Investigative Operations - Very Good (Last Inspection - Very Good). Case load as of 9/30/65, 7552 pending investigative matters (6891 active); delinquency 9.5% as compared with field average 5.6% and above field average each month since last inspection. Statistical accomplishments up in all 4 categories for last 3 fiscal years (in last 2 fiscal years office led Bureau in convictions and fugitive apprehensions by substantial margins); for first 3 months fiscal 1966 up in 3 categories but down 37% in convictions - SAC affording personal attention, contemplates exceeding fiscal 1965 in all categories. Missed applicant, civil rights and fugitive deadlines below field average. 10 substantive errors detected for 228% (below field average - administrative action handled separately). 196 of 321 bank robbery (BR) violations occurring since last inspection (272 robberies, 21 burglaries and 28 larcenies) solved - solution rate 61%; BR violations increased 19% in fiscal 1965 (373 total); despite solution of 38 old violations since last inspection backlog now totals 209; necessity for more intensified investigative effort stressed. Criminal Informants producing valuable information; number and quality increased since last inspection; program rated very good; however, ^{more} coverage in certain Resident Agencies needed. Communist Party (CP) organization in Los Angeles second largest in country - 1486 Security Index Subjects in territory. Communist Party concentrating primarily in youth field and fronts, seeking to hamper legislative activity against subversives. Security informants increased since last inspection and coverage substantial - program rated very good; however, Inspector stressed necessity to maintain ample reservoir of potential informants for continuing replacement. No Klan activity reported

1 - Mr. Callahan (Attention: G. R. Davidson) (Sent Separately)

1 - Personnel Files of Wesley G. Grapp and [REDACTED]

PCY:wmj (6)

b6
b7C

mo for Mr. Tolson
e: Inspection - Los Angeles Office

in area but hate groups of limited membership active. Nation of Islam (NOI) membership previously estimated at about 550 but information obtained during Watts rioting indicates membership possibly much higher; coverage extended and investigations intensified. Watts riots confirmed racial situation in Los Angeles aggravated, highly explosive and has resulted in anti-law enforcement feeling in that area; SAC instructed to take due precautions to insure safety of personnel and to preclude embarrassment to Bureau. Los Angeles has large and active La Cosa Nostra (LCN) family in territory which has close ties with out-of-state families; accomplishments significant; with recent discontinuance of highly productive confidential sources, emphasis being placed on redirection of investigative effort and use of additional manpower.

Administrative Operations - Good (Last Inspection - Fair). 15-desk office - justified; supervisory duties equitably distributed. As of 9/30/65 active case load per Agent 25.1 (above field average); case closings slightly below average. One Agent detected who failed to insert 7 revisions in Special Agents Handbook over extended period (handled separately); corrective procedures instituted by Inspector to preclude recurrence. Stenographic and typing production exceeds comparable offices; retypes high. Chief Clerk's Office operating effectively but project work high - immediate and continuous reduction ordered; corrective procedures instituted to expedite opening cases and recharging serials. Form errors and misfiled indices cards below field average. Travel, per diem and communications costs below Bureau base for fiscal year 1965 and through 8/65; increases noted 9/65. Time in office reduced since last inspection - still high (23.8) - reduction ordered for maximum investigative accomplishments. Inspector corrected procedures in use of control file for cases closed administratively.

Personnel Matters - Good (Last Inspection - Very Good). Would be rated very good if it were not for poor Agent recruiting record. During inspection survey Los Angeles Office had an approved complement of 298 Agents and 201 clerks. SAC requested 24 additional Agents and 7 clerks. Inspector's analysis reveals increase of 11 more Agents and 5 clerks justified (approved). Complement will now be fixed at 309 Agents and 206 clerks - adequate but not excessive for clerk-Agent ratio of 66% (slightly above field average). No Agents or male clerks overweight; 3 Agents on limited duty and 3 unavailable - justified. 3 Agents on probation. 1 clerk and 8 Agents recruited since last inspection (21 Agents' classes this period); SAC instructed to intensify as record definitely needs improvement. Administrative action taken during inspection concerning 1 Agent who lost official firearm and did not promptly report same and another Agent who admittedly used Bureau car during official working hours to handle personal problem. Morale appears high.

b7E

Contacts - Excellent (Last Inspection - Excellent). ☐ SAC contacts ☐ last inspection) furnishing diversified and beneficial services; ☐ pending Bureau approval; ☐ of current contacts developed by SAC Grapp. Public appearances up in 1964 over previous calendar year - further improvement contemplated in current year. Speech program effective with good geographical coverage before wide variety of groups; radio and television being used effectively. 2 top ten fugitives apprehended by FBI as result television publicity. Press relations favorable and liaison programs active; police training receiving aggressive attention; National Academy active, well organized. Persons met spoke highly of Director, FBI and Los Angeles Office personnel.

Memo for Mr. Tolson
Re: Inspection - Los Angeles Office

RECOMMENDATIONS:

1. SAC Wesley G. Grapp, GS-18 @ \$24,500, 5th office as SAC, at Los Angeles since 3/2/64, veteran, not on probation. Rated Outstanding 1965 annual rating. Presents impressive, mature appearance, has exceptional stamina, drive and enthusiasm. He is a hard-working, dedicated and completely loyal employee, a firm but fair administrator with vast knowledge of Bureau's policies and procedures. No substantive errors detected on desk; continue as SAC. If approved, attached letter summarizing inspection findings should be forwarded.

2. ASAC [redacted], GS-15 @ \$18,170, nonveteran, ASAC at Los Angeles since 1/14/62, second office as ASAC. [redacted] makes businesslike appearance and has a pleasant, sincere manner. He is an exceedingly loyal and dedicated employee. Although of quiet demeanor, he exerts sufficient force when needed. No substantive errors detected on desk during inspection. SAC feels [redacted] presently capable of assuming greater administrative responsibilities and Inspector concurs. If approved, attached letter to SAC will also advise ASAC of inspection findings. b6 b7C

3. Recommendations concerning other personnel being handled separately.

November 1, 1965

Los Angeles, California

Dear Mr. Grapp:

I have reviewed the results of the recent inspection of the Los Angeles Office and based upon the Inspector's findings I have approved the following ratings: Physical Condition and Maintenance and Contacts - Excellent; Investigative Operations - Very Good; Administrative Operations and Personnel Matters - Good.

The Inspector found your office to be secure, well maintained and effectively utilized considering the crowded conditions. You will be expected to afford close attention to the negotiations being conducted by the General Services Administration to provide adequate accommodations in your headquarters city and at the Santa Ana Resident Agency. The minor housekeeping delinquencies brought to your attention must be corrected as ordered and you should continually impress upon all employees the necessity for maintaining a neat and businesslike office at all times.

No delinquencies were found affecting the safe operation of Bureau automobiles assigned to your office and it was encouraging to note that your automobile repair and operating costs are below the field average. Economy and safety in the operation of the automobile fleet cannot be overemphasized.

The statistical accomplishments of your office for the past three fiscal years have been gratifying. However, the substantial decrease in convictions for the first three months of fiscal year 1966 is alarming. There must be an immediate reversal of this trend if your impressive record of recent years is to be maintained.

The ten substantive errors detected reveal the necessity for closer supervisory and investigative attention. You should forcefully bring to the

Mr. Wesley G. Grapp

attention of all personnel their individual obligations to handle each assignment in compliance with the high standards expected of the Bureau. The serious problem caused by the high volume of bank robbery violations in your division is recognized. Nevertheless, the streamlining procedures effected following the last inspection and the additional manpower which has been approved for intensified handling of these matters should enable you to cope with the growing backlog of unsolved violations as well as to keep abreast of new violations as they occur.

The below-average percentage of missed deadlines in applicant, civil rights and fugitive matters and your low percentage of form errors are most encouraging. Every effort must be made to further improve upon this record.

The Criminal and Security Informant Programs were rated very good. The increased number of informants and broader coverage being obtained indicate a proper approach to the objectives of these programs. As you are aware, there is no substitute for quality informant coverage. The Watts rioting last August has certainly made our investigative responsibility with regard to the Nation of Islam even more critical. Only by having complete and current knowledge of the identities and activities of members of this and similar groups can we hope to effectively discharge our obligations. It is imperative that your informant coverage of these elements be expanded to the extent that the Bureau will be fully informed of important developments at all times. Since it is apparent that racial tensions in certain areas of your territory are high, you must insure that investigative undertakings in the troubled areas are afforded sufficient planning and carried out with adequate manpower to prevent injury to employees and preclude embarrassment to the Bureau.

The inspection findings disclosed that your Criminal Intelligence Program has produced high-quality information and is receiving aggressive attention. This program must be constantly re-evaluated to be certain that investigative effort is directed to the most productive channels.

While the operation of your Chief Clerk's Office was found to be generally effective, there is a need for closer supervisory attention to insure that all categories of cases are promptly opened, that closed files are more frequently checked for delinquent serial charge-outs, and that the accumulation of project work on hand is materially reduced. I observed with

Mr. Wesley G. Grapp

satisfaction that your stenographic and typing production was found to be above the average of comparable offices; however, the above-average number of pages which required retyping indicates a need for greater care in the preparation of paper work.

I was pleased to learn that your travel, per diem and communications costs were below the Bureau base for fiscal year 1965 and that this favorable condition was continued into the first two months of the current fiscal year. The increases in these expenses for September, 1965, will require constant vigilance in order to keep all costs at a minimum. While there has been some reduction in time spent in the office by Agent personnel since the last inspection, it is still too high. I want you and your supervisory staff to take whatever steps are necessary to keep the time in the office at an absolute minimum.

In order to meet the heavy and ever-increasing demands made upon this Bureau, it is absolutely essential that well-qualified clerical and Agent personnel be recruited on a continuing basis. The recruitment of only eight Agents since the last inspection reflects inadequate and unacceptable performance by Los Angeles and has made it necessary for other offices to fill the gap in order to meet the Bureau's needs. Because of the failure of the Los Angeles Office to recruit its fair share of new Agents, you are being downgraded in Personnel Matters. Further, my approval of the assignment of eleven additional Agents to your office rather than the twenty-four which you requested was partly due to your poor Agent recruitment record. Based upon the fact that Los Angeles is a heavily populated area having a number of law schools, I feel there can be a sharp improvement in your recruiting if it is properly emphasized and approached with ingenuity and enthusiasm. This is a real challenge to your ability as a Special Agent in Charge and I expect substantial results. Regarding your request for seven additional clerical employees, you have been separately advised of my approval of five more employees.

It was of concern to me that during the inspection an Agent lost a Bureau firearm and failed to promptly report same and in another instance an Agent used a Bureau car during official working hours when visiting a relative to assist in a personal problem. Such activity definitely indicates a need to tighten your administrative controls.

I was pleased to learn that you have an effective public relations program. As you are aware, it is essential that the public be informed of

Mr. Wesley G. Grapp

our responsibilities and accomplishments, and the use of media such as speeches, radio and television appearances is ideal for reaching large segments of the population. Your favorable relationship with representatives of the press and law enforcement is noteworthy and should continue. The maintenance of imaginative, timely and enthusiastic police training is essential if the Bureau is to uphold its pre-eminence in the field of law enforcement training.

You and your Assistant Special Agent in Charge should carefully review all of the inspection findings and advise the Bureau within thirty days from receipt of this letter of the corrective action taken to comply with all of the Inspector's instructions.

Sincerely yours,

John Edgar Hoover
Director

FBI
RECEIVED ROOM

Dear Mr. Grapp:

Bureau records disclose that Time Spent in Office by Agents (TIO) in the Los Angeles Office was 23.5 per cent in October. While this is a decrease from the previous month, it is still considered high. This matter should be stressed to your agent personnel and all should endeavor to further reduce time spent in office, consistent, of course, with the necessary discharge of official business.

Sincerely yours,

J. Edgar Hoover

John Edgar Hoover
Director

- 1 - Inspection Division

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

As you may be aware, I was in contact with Mr. John McCone, former Director of Central Intelligence Agency, on Friday, November 19, 1965. At present he is heading up the McCone Commission, which is investigating the cause of the riot in the Watts area of Los Angeles last summer. I am told on good authority he has received a grant of \$150,000 from the Ford Foundation, plus \$100,000 from the State of California, as well as very substantial contributions from private sources which will probably exceed \$50,000. In addition to that he has certain personnel assigned to him such as stenographers, secretaries, publicity men, etc., who are on loan from some of the local defense plants. The official part of my interview with McCone is set forth in Los Angeles letter to you dated November 19, 1965, captioned, "Racial Riot...Los Angeles, 8/11/65..."

He mentioned to one of his trusted aides, whom I am using as a personal source, that he was disturbed over the fact he had received information to the effect there was a conflict of personalities between two great law enforcement leaders. He stated that Chief of Police Parker does not use the National Academy and he has heard that Parker personally is not well thought of by the FBI. In the strictest of confidence he has stated he feels this is most unfortunate and that he plans on healing the alleged breach. He has recently stated he is toying with the idea of telephonically contacting you and asking for an appointment. His view is to act as a go-between. During my interview McCone was very friendly but he did not bring up the subject directly with me. I am dropping this note to alert you in the event such a telephone call should be received.

Another source has advised that Mayor Sam Yorty was hoping that Parker would retire because of his, Yorty's, forthcoming anticipated race for Governor of California. Certain

individuals thought that maybe Parker, who is under Civil Service protection, could be removed for reasons of health. He outmaneuvered these wishful thinkers by securing a doctor's certificate stating he will return to excellent physical condition and that his health would be impaired if he did not return to work because of its therapeutic value. Parker has mentioned to a confidant that he anticipates staying as the Chief for many more years.

Several Deputy Chiefs, including [redacted], have told me he had the Department so fouled up that nobody could unscramble it. He has a great many problems, including that of recruitment. He has had oral encouragement for several years that he could bring the strength of the Los Angeles Police Department up to approximately 10,000 individuals but he is unable to keep it up to its present full authorized complement of 5,000. This is despite the fact that they require only a high school education, no outstanding personal attributes are required, and some will even be hired who have been arrested on several occasions just so it is not a felony, according to Parker himself. They have recruited throughout the South and the Midwest, and despite the fact the salaries range for a forty hour week from approximately \$7,500 on up he is unable to maintain full strength.

It has rained most of the time for the past two weeks and the amount of precipitation is approximately five times above normal. It is still raining with the prospects for it to continue for four or five more days. You will recall the apartments and private dwellings on the hills along the coastal route by Santa Monica. It has washed mud and caused landslides to the extent that Highway 101 in that area is closed indefinitely.

It is hoped that you will continue to be blessed with excellent health and much happiness.

With warm personal regards,

Sincerely,

WESLEY G. GRAPP

SAC

PERSONAL

Mr. Wesley G. Grapp
Federal Bureau of Investigation
Los Angeles, California

Dear Mr. Grapp:

On September 17, 1965, I issued instructions with respect to the recruiting of Special Agent applicants that, effective immediately, each field office would be required to furnish at least one Special Agent applicant a month for the remainder of the fiscal year. This action was taken to insure that each office equitably shared in this most important program, and it was pointed out that administrative action would be taken if this quota was not met.

A review of the appointments accepted for the Special Agent classes which convened during October and November, 1965, leaves me with no other conclusion than that the handling of this program in your office was grossly inadequate. You may be sure that any future requests for Special Agent personnel for your office will be carefully weighed with your accomplishments in this regard.

Henceforth, it will be incumbent upon each office to produce well-qualified Special Agent applicants, and I am holding the Special Agent in Charge personally responsible for meeting the set quota.

Very truly yours,

J. Edgar Hoover

John Edgar Hoover
Director

Dear Grapp:

With respect to your letter of November 22nd concerning McCone's view to act as a go-between, for your information, I don't need his services in this capacity.

It was thoughtful of you to write and I want to thank you for your kind wishes.

Sincerely,

JEE

Each man discharged his individual responsibilities with noteworthy resourcefulness and skill, effectively overcoming the difficulties encountered in this complex matter. The diligent efforts of these agents contributed to the success achieved and I want you to convey my appreciation to them for the high caliber of their services.

PERSONAL ATTENTION

Mr. Wesley G. Grapp
Federal Bureau of Investigation
Los Angeles, California

Dear Mr. Grapp:

According to Bureau records, Time Spent in Office by Agents (TIO) in the Los Angeles Division was 24.0 per cent in November. This is an increase over the previous month. This matter should continue to receive your close personal attention and every effort should be made to reduce TIO in your division, consistent with the proper handling of official responsibilities.

Sincerely yours,

J. Edgar Hoover

John Edgar Hoover
Director
